Do you have access to the I drive? Under Gold King Mine and Resources there's the resource spreadsheet. It's accurate as of last night but add 4-6 more people as of today. Just count any blue square as long as they are EPA R8. Otherwise, if Tina is there she can help u. I can check once I get settled in.

Luke,

Can you give me your best guess of total number of people working on the response for the region full-time (both deployed to Durango and working out of the REOC) at this time? I'm looking at 51. I'm needing the number to calculate the payroll burn rate.

Thanks,

Joe
